# About Seven D Industries

Seven D Industries, LP. is a premier manufacturer of premium vinyl replacement and new construction windows, patio doors and architectural shapes. Our window products are designed and manufactured with the latest technology by skilled craftsmen to enhance your home with energy efficient comfort, lasting beauty and resilience.

As the number of area building construction projects continued to increase, the DeGol's began manufacturing vinyl window products in 1994. Under the direction of Bruno DeGol, Jr., the business first occupied an 18,000 sq. ft. plant and employed just seven people; in 1996, it moved to a 48,000 sq ft facility in Patton, PA. During the fall of 2000, Seven D Industries' window division began development of another production facility, located on an eighteen and one-half acre site in Huntingdon, PA. In the fall of 2008, Seven D Industries Window division consolidated all of its manufacturing plants into a single facility in the DeGol Industrial Center in Hollidaysburg, PA. The plant features the latest in manufacturing technology and state-of-the-art, computer-driven systems to insure quality control, allowing its well-trained staff to maximize production.

The success of the DeGols' window division result primarily from their commitment to offer a premium product at the most competitive prices. The company provides technical and service support that is unsurpassed in the region it serves. Seven D Industries works hard to establish a mutually beneficial relationship with its customers, responding promptly to their needs. The DeGol family remains steadfast in their pledge to provide the ultimate in service to each and every customer.

Choose vinyl new construction or replacement windows and patio doors from Seven D Industries, LP. You'll discover what Seven D vinyl windows can mean to you and your home's beauty, weatherability and cost efficiency.

Replacement

7800 Series

*Double Hung* windows are best suited to traditional architectural styles. Both sashes on a double hung windows slide vertically past each other and tilt in for easy cleaning.

- Welded sloped sill for superior run-off
- Extruded sill receiver leg for added sash stability
- All welded heavy-duty sash system
- Upgradeable super thermal triple pane IG gets an R5
- Extruded handle rails on the top and bottom sash
- Meets and exceeds energy star standards
- Standard DP-50 on all units up to 40" x 72"
- Standard vent latch upgradeable to a WOCD vent latch
- Standard constant force balance system

*Single Hung* windows are also best suited to traditional architectural styles. The lower sash on a single hung window slides vertically past and tilts in for easy cleaning. The upper sash is stationary and does not slide or tilt.

- Welded sloped sill for superior run-off
- Extruded sill receiver leg for added sash stability
- All welded heavy-duty sash system
- Upgradeable super thermal triple pane IG gets an R5
- Extruded handle rail on sash for easy operation
- Meets and exceeds energy star standards
- Standard DP-50 on all units up to 40" x 72"
- No hassle extruded compression fit half screen
- Standard constant force balance system

The modern elegance of a sliding window is an ideal solution, particularly when a projecting window might interfere with walkways, patios, decks, or landscaping. Choose a **Two Lite Slider** with 1 or 2 operable sashes that slide horizontally, or a **Three Lite Slider** with a large stationary window in the center surrounded by 2 horizontal sliding sashes.

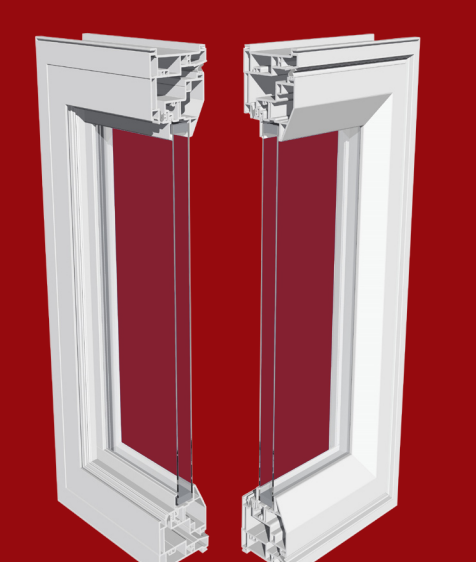

- All welded heavy-duty sash system
- Extruded handle rails on the sash
- Meets and exceeds energy star standards

\* Ratings shown are for double sliders. Single and three lite slider ratings may vary.

**Casement**, with their exquisite beauty, excellent thermal efficiency and unique functionality, are truly in a class of their own. **Casement** windows can be left or right hinged to open to the outside. No operating window closes more tightly or securely. As a result, they are highly energy efficient.

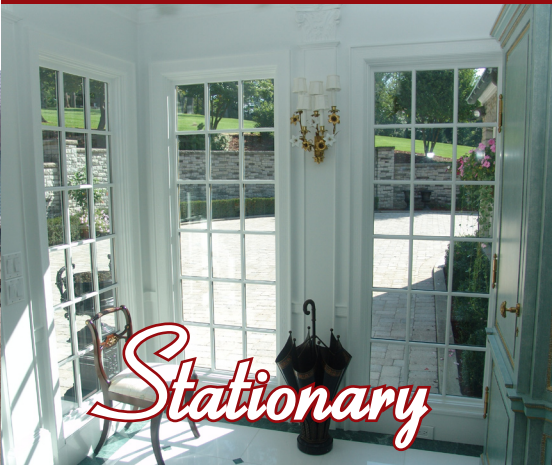

- Fully welded frame and sash
- Upgradeable super thermal triple pane IG gets an R5
- Meets and exceeds energy star standards
- Multi-point locking system
- Clean look spring loaded clipless screen
- Handle folds into operator
- DP55 out of the box up to 36x72

**Awning** windows add the perfect touch of character and charm to your home. They provide the superb combination of style, simplicity, and maximum energy efficiency to help reduce your heating and cooling costs, let in more natural light, and make a bold statement that will add character and life to any room.

- Fully welded frame and sash
- Upgradeable super thermal triple pane IG gets an R5
- Meets and exceeds energy star standards
- Dual locks standard
- Clean look spring loaded clipless screen
- Handle folds into operator
- DP50 out of the box up to 48x32

**Picture Windows** offer unobstructed views and feature wide expanses of glass for light-filled rooms and panoramic view of the outdoors. Picture windows may be the perfect solution for homeowners that want to make the most of their views.

Not only do picture windows provide amazing views but because they are stationary, they are the most effective in preventing air infiltration, making your home highly energy efficient.

**Patio Doors** create a fresh and exciting entry to your home by extending your home's ambience to the great outdoors, visually expanding and brightening any room. From a quality design and excellent construction to smooth operation and enduring beauty, **Patio Doors** are an excellent choice.

- Fully welded frame and sash
- Aluminum reinforced sash and meeting rail
- Fully reversible
- Meets and exceeds energy star standards
- Face adjustable precision bearing tandem rollers
- Color match (standard) handle includes key lock
- Extruded screen with interior adjustable rollers
- Upgradeable to DP50
- 1" IG unit with 1/8" tempered glass (upgradeable to R5 glass package)

Bring light and space into any room with the beautiful, open look of a **Bay or Bow Window**. They accentuate the view by dividing it into different panes. They also bring in more light and give a feeling of spaciousness to a room.

**Garden Windows**

Bring sunshine, outdoor views and a little greenhouse into your kitchen. With a **Garden Window**, you can add a window greenhouse to almost any room.

**Operable Octagons**

Add beauty and elegance to any home. Our **Operable Octagon** windows have a fully welded, rigid PVC vinyl frame for greater strength and stability, will not rot, chip or peel and will never need to be painted
